Welcome to The Shire of York

The Shire of York is a thriving community, proud of its heritage and strong agricultural backbone. York was founded in 1831 with the Municipality of York created in 1871.

The Shire of York is committed to providing a high quality service to the community of York. This can only be achieved through the cohesive contributions of the community, elected members and staff of the Shire of York.

Council welcomes your enquiries through its Administration Centre, which is located next to the Town Hall in Joaquina Street, York. Front counter assistance is available between the hours of 8:30am and 4:30pm Monday to Friday. The staff of the Shire can provide you with a vast array of information and will assist with professional expertise whenever possible.

LICENSING

The Council's vehicle licensing section closes at 4:00pm Monday to Friday. No licensing can be processed after that time. All other enquiries or payments can be made up to 4:30pm.

ADMINISTRATION

You can contact the Shire in writing to the Chief Executive Officer at PO Box 22, York, 6302 or on the following numbers:

SENIOR OFFICERS

Chief Executive Officer	Paul Martin
Executive Manager Corporate & Community Services	Suzie Haslehurst
Executive Manager Infrastructure & Development Services	Paul Crewe

In order to protect and enhance the community and environment of York, all residents are encouraged to observe the following requirements:

TOWN PLANNING

Town Planning coordinates land use and development by balancing economic, social and environment issues. Planning policies, schemes and other statutory processes guide decisions that shape and focus on quality of life for the community.

The York Local Planning Strategy and the York Town Planning Scheme No 2 are the two main documents that guide development in the Shire.

Planning approval is generally required prior to the use of land or construction of a building or to erect or display advertising signage. In most cases a change of use also requires planning approval, including shops and home businesses. A Building Permit is generally required for construction works. If your property is heritage listed or within a heritage precinct, then all works, including internal works, require planning approval and a building permit.

The planning framework is governed by the Shire of York Local Planning Strategy while the local planning legislation is contained in the Shire of York Town Planning Scheme No. 2.

Before commencing any development on land within the Shire, landowners and applicants are advised to contact the Shire's Planning Department on 9641 2233 to arrange for an appointment to discuss their proposal.

The Planning Department staff will be happy to assist landowners to determine whether formal applications are required and how they can guide the applicant through the process.

BUILDING CONTROL

Building Permit Application Process

In Western Australia, a building permit is required before any building work can be carried out and can be obtained from a permit authority (local government) for the location where the work will take place. The Building Act 2011 (the Building Act) defines what is building work and sets out the process for obtaining a building permit.

The Building Act requires the person named on the permit as the builder to ensure that the building is completed in accordance with the plans and specifications approved in the certificate of design compliance and in accordance with the building permit. The Building Act also prescribes the building standards. The person named as the builder on the building permit is responsible for ensuring compliance with the applicable standards.

When you apply for a building permit, you must consider whether to lodge a certified application or choose to lodge an uncertified application. In either case, a signed certificate of design compliance (CDC) is required before approval can be given. A CDC confirms that a building's design complies with the applicable building standards.

A certified application is where you engage a registered building surveyor to complete a CDC before the application for a building permit is submitted. The CDC will need to accompany the application for a building permit certified Form BA1. If all other required approvals have been obtained, the Shire of York has ten business days to approve or reject your application. Applications for Class 1b and Class 2 to 9 must be lodged as certified applications. Applications for Class 1a and 10 may be lodged as certified applications or uncertified.

An uncertified application can only be lodged for Class 1a and 10 residential buildings using a Form BA2. Once your application is submitted the Shire of York will assess compliance with the Building Code of Australia and complete the relevant certification (CDC) before it can grant a building permit. The Shire of York has 25 business days to approve or reject your application. For a timely approval it is important to ensure plans and specifications submitted with your application demonstrate compliance with the Building Code of Australia and all other relevant approvals have been obtained before your application is submitted.

A CDC can be signed by any registered building surveyor with appropriate qualifications. Shire of York provides a building surveying service for certificates of design compliance for class 1a and 10 buildings only. Applications for other classifications must be submitted as a certified building permit application.

Occupancy Permits

Prior to occupation of any commercial building (Class 2-9) an Occupancy Permit is required to have been issued by the Shire of York. Prior to the commencement of the Building Act 2011 these were previously known as a Certificate of Classification. An Application for Occupancy Permit must be submitted as a certified application and include a BA17 Certificate of Construction Compliance (CCC) issued by a registered Building Surveyor.

Notification of Completed Works

Within 7 days of completion of building works, the builder is required to submit to the Shire a BA7 Notice of Completion. This applies for all building classifications and types.

Asbestos

Asbestos cement is generally considered to be stable if it is left undisturbed. Asbestos products are to be transported and disposed of in accordance with Department of Environment Regulation requirements. There are specific requirements for the dismantling and removal of asbestos cement products in dwellings and other buildings to ensure that risk from asbestos fibre inhalation is reduced.

For more information visit the [Department of Health](#) website, [Department of Environment Regulation](#) website, or contact the Shire of York on (08) 9641 2233.

New Buildings, Additions and Alterations

All new buildings, additions and alterations will generally require a building permit to be issued prior to commencement of construction works including earthworks.

Small outbuildings with a maximum floor area of 10m² and a wall height no greater than 2.4m are exempt from requiring a Building Permit, providing they also meet the setback requirements of the Residential Design Codes WA.

Building Repairs and Maintenance

Buildings are required to be maintained in a safe and sound manner. Repairs may be required if a building is deemed to be structurally unsound and pose a safety risk to the general public.

Carports and Garages

All carports and garages require a Building Permit.

Demolitions

All demolitions require a demolition permit and some also require planning approval.

Patios and Pergolas

Generally all patios and pergolas require a building permit. Some exceptions exist under the Building Regulations 2012. Please contact the Shire of York for more information.

Retaining Walls and Fences

All retaining walls over 500mm in height require a building permit.

Additional Building Info

Further information can be obtained by contacting the Shire's Building Surveyor on 08 9641 2233. Additionally, the Building Commission WA has information on their website: www.buildingcommission.wa.gov.au

Work Affecting Other Land

The new Act deals with work affecting other land.

The key point to work affecting other land is that the owner, or the builder on behalf of the owner, must get the consent from the owner of adjoining land before doing anything that may affect the land (or that might affect the neighbour). If there is a likelihood that the building work may require access to a neighbour's land, or if there may be a need to remove a fence or any other structure, owners should be advised and their consent obtained as soon as possible. If consent cannot be obtained, a court order can be applied for. A standard form to request consent is available from the Building Commission website www.buildingcommission.wa.gov.au.

HEALTH

Environmental, community and public health programmes are undertaken by the Council's Environmental Health Officer. Some of the areas dealt with by Council staff include assessment of food premises, effluent disposal, waste disposal, environmental protection and safety. Food Handling courses are available free on the Council's website at www.york.wa.gov.au

RATES INFORMATION – YOUR PROPERTY

The Shire of York levies rates each financial year to fund Council's services. These services include maintenance of parks and reserves, library services, roads, health, sanitation, building control and operation of recreational facilities. Rates account for approximately 50% of the Shire's revenue. The rate in the dollar is determined in relation to the predicted revenue needed for the budget requirements.

Anyone owning residential or commercial property within the Shire of York is a ratepayer and is required to pay the rates levied. Some government bodies, educational and registered charitable organisations are exempt from paying rates. How much you pay depends on the valuation of your property as defined by Landgate.

The Shire of York provides other services to the residents which are chargeable, over and above the rates.

How Rates Are Calculated

Property values are determined by Landgate (Valuer-General's Office). Rates are calculated by multiplying either the Gross Rental Value (GRV) or Unimproved Value (UV) by the rate in the dollar adopted by Council. Rates are subject to a minimum payment, set each year by Council as part of the Annual Budget.

GRV's are used for townsite properties and represents the gross annual rental potential that a property might reasonably earn in a year, not its market value. Whether a property is used as a rental property is irrelevant. For example, a GRV of \$15,000, divided by 52 represents a weekly rental potential of \$300.

UV'S are used for land within the York Shire rural boundary and is a valuation assessed as though the property remains in its original natural state, no improvements.

Emergency Services Levy (ESL)

The ESL is forwarded to the Department of Fire and Emergency Services to fund Western Australia's fire and emergency services, including career fire stations, volunteer fire brigades, State Emergency Service units, the Volunteer Marine Rescue Service and the multi-purpose Volunteer Emergency Service units.

Other Charges

Other charges that you may see on your rates include but are not limited to:

- **Transfer Station**
- **Rubbish Collection Service**
- **Swimming Pool/Spa Inspection**

Pensioners & Seniors

All rebates to pensioners and seniors under the Rates and Charges (Rebates and Deferrals) Act 1992 are funded by the Government of Western Australia.

To be eligible to make a claim for a rebate, you must:

- Hold a relevant card issued by the appropriate government department.
- Be the owner or co-owner of the property.
- Occupy the property as your 'ordinary place of residence' on or before 1 July of the rating year applied in.

You may only claim a rebate on one property.

Payment of Rates

There are two payment options available to ratepayers in the Shire of York.

- Payment in full.
- Payment by four instalments.

The due dates for the 2017/18 year are as follows:

Payment in full	28 August 2017
First Instalment	28 August 2017
Second Instalment	30 October 2017
Third Instalment	15 January 2018
Final Instalment	15 March 2018

Where the instalment option is taken, an additional instalment administration charge and apportioned interest is to be applied.

Once the due date has passed for payment, interest will apply to all outstanding balances.

Overdue Rates

Rates and charges are the responsibility of the current owner/s of a property. If you are unable to pay your rates and charges by either of the above two options, you may make application to the Shire of York, to enter an agreement to make alternative payments.

Where no payment or alternative arrangement has been made, in accordance with the Shire of York Finance Policy F1.1 Revenue Collection, legal action to recover outstanding rates and charges may be taken. Costs associated with legal action are recoverable from the ratepayer and will be added to the account.

Change of Details

The Shire of York must be advised of any changes that may affect the property or the postal address for serving of the rate notices.

When a property is sold or the land transferred, the person selling or transferring the land, the settlement agents or the new owner is responsible for advising the Shire of York of the sale or transfer of the land. This also applies to change of postal address or change of Title Deed details due to marriage, separation or death.

ANIMAL CONTROL

DOGS

A dog owner is legally required to register their dog with the local government if it is more than three months old. The registration period is from 1 November to 31 October the following year.

Since 1 November, 2015 the owner of any dog that has reached 3 months of age must also ensure that the dog is microchipped.

The Shire of York Dog Local Law states that unless a kennel license has been granted under this local law or an exemption is granted under section 26(3) of the Dog Act, the limit on the number of dogs kept on any premises is:

- On land within a townsite, or zoned rural residential under a local planning scheme, 2 dogs over the age of 3 months and the young of the dogs under that age, or
- On land zoned “rural” under the local planning scheme, 4 dogs over the age of 3 months and the young of those dogs under that age.

CATS

Since 1 November 2013, all domestic cats in Western Australia, over six months of age, have been required to be sterilised, microchipped and registered with the Council and wear a collar and registration tag to ensure they can be easily identified and returned to you if they become lost.

The Shire of York Health Local Laws 2000 state a person shall not, without an exemption in writing from the Council, keep more than 2 cats over the age of 3 months on premises on any land within the District.

WASTE MANAGEMENT

The Council offers a weekly rubbish pickup in the townsite as well as in some rural areas. Please contact the Shire to confirm whether a bin service is available in your area. Mobile phones can be disposed of at the Shire Administration Building.

- * The recycling bin is collected on the same day as your current rubbish service. Pick-up is every fortnight.
- * The recycling bin needs to be placed alongside your rubbish bin for collection.

The Council operates a waste transfer station at Spencers Brook Road. This facility is open 12 noon to 3:00pm Monday, Wednesday, Friday & Saturday and 11:00am to 5:00pm on Sundays. All domestic waste is accepted at this site except for hazardous materials such as asbestos and chemicals. Large volumes of waste cannot be accepted, nor can commercial waste such as building site waste.

Persons wishing to dispose of such materials must contact the Shire of Northam direct to make an appointment to dispose of such waste at their tip site and to be advised of the fees applicable to the type and volume of waste intended to be deposited at the Shire of Northam Tipsite.

A skip bin service is also available for property owners of the gazetted York townsite who receive a rubbish service. The Council will provide free use of a bulk bin for one week. This service is available on one occasion per financial year. If you don’t own the property, the property owner must provide written consent.

BUSHFIRES

Updated information will be provided with Rates Notices and available on the Council’s website: www.york.wa.gov.au

RECREATION & CONVENTION CENTRE – 9641 0600

Modern recreation facilities built for community enjoyment. 24hr air conditioned gym plus conference and function facilities (available for community, private and corporate use). Home to many York **sporting clubs**, YRCC also features a licensed bar open Wed – Sun afternoons, and a café as well. Located at the Forrest Oval Complex, off Barker St via Forrest Street.

SWIMMING POOL – 9641 1410

The swimming pool is open from November to March 7 days per week, 1.00pm to 6.00pm – depending on weather conditions and Monday, Wednesday, Friday – 6.30am – 9.00am for early morning swimming.

THE RESIDENCY MUSEUM – 9641 1751

A visit to the award winning Residency Museum gives you a fantastic insight into the region’s history.

The Residency Museum is located in the old Convict Hiring Depot in Brook Street, York, and is an ideal way to soak up some of York’s great atmosphere and find out fascinating stories about local people and places. The Museum is full of lively, colourful new exhibitions which have been professionally designed and covers a diverse range of themes.

Children and school groups are most welcome with plenty of hands-on activities available. Free entry for Shire of York Residents. Opening Hours are Tues, Wed, Thurs 1.00pm – 3.00pm; Weekends and Public Holidays 11.00am to 3.30pm.

Further information about the Museum is available at www.york.wa.gov.au/residencymuseum or by contacting the Museum Curator.

The York Visitors Centre is located in the York Town Hall with information on York's history, accommodation, attractions and events available.
Opening Hours - 9.30am – 3.30pm every day

The York Community Resource Centre is a not for profit, community managed organisation servicing the regional community of York.

The York CRC delivers a range of services and programs that helps to maintain and build upon the fabric of the community of York. The Centre, through its programs, helps to empower and progress the community, thereby adding to the rich local environment. Importantly, the York CRC engages the community in business and social development that builds capacity in York’s people and advances the region.

If you would like to become a Member of the York Community Resource Centre and receive a discount on our products and services, the Fees are:

Corporate and Business	\$55
Non-Profit	\$40
Family	\$50
Family (Concession)	\$45
Individual	\$30
Individual (Concession)	\$25
Student Card	\$20
